PROJECT DESCRIPTION

The University of California, San Francisco (UCSF) Health is seeking Trade Contractors/Subcontractors to help build the New Hospital at UCSF Helen Diller Medical Center at Parnassus Heights, commonly referred to as the Helen Diller Hospital (HDH).

UCSF Health's goal is to maximize innovation, quality, productivity, flexibility, and collaboration to create value for cost through use of the current, best-in-class project delivery model for large healthcare programs.

UCSF Helen Diller Hospital project will create a new hospital dedicated to serve San Francisco and the surrounding areas. This flooring package is essential for turning over a finished hospital space that will serve generations to come.

Constraints: The project site is constrained and within a densely built environment. Construction will take place in close proximity to neighbors, bordered by Mount Sutro Preserve, and next to a busy intersection. HBW must coordinate with surrounding UC and non-UC projects with concurrent timelines.

The safety, privacy, health, and care of patients, visitors, and staff cannot be compromised at any time. UCSF Health is also committed to respecting the needs of our neighbors and community. We are seeking IPD Team members who have a collaborative spirit and can work within the bounds of the project constraints, schedule, and budget.
